"THE BIG STORE" . . . Central Square, Sydney

BEDSTEAD SECTION

Bedsteads, Bedding, Wire Mattresses

You will at once be impressed with the splendid range of Bedsteads quoted in this Catalogue. Here are Bedsteads that will prove suitable for any and every home in the State. So whatever your needs may be you will find complete satisfaction somewhere in these pages.

THE AVERAGE PERSON

spends 121 full days in bed each year. More than one-third of your life is spent in bed, so why not choose it carefully. You at once eliminate all risk in this respect when you purchase from the firm that exercises direct personal supervision over the manufacture and construction of such an essential piece of furniture. Very careful selection is made of

HIGH-GRADE MATERIALS.

Steel and Iron tubing that has been scientifically tested for strength and flexibility is used, all joints receive special care, and angle pieces are accurately fitted. Special processes are used for applying

ENAMEL AND LACQUER

so as to enable a very glossy appearance to be secured and one that can easily be cleared of finger marks. It is remarkable the length of time our Bedsteads retain their new appearance.

BRASS AND NICKEL FITTINGS

are highly burnished, and greatest care is exercised in fitting same. The right use is made of these ornaments, and nowhere is utility sacrificed for appearance. The Wire Mattresses are made from carefully selected and thoroughly Seasoned wood and high-grade steel wire.

They are "long life" mattresses, being secured at corners by strong bolts that ensure rigidity under all conditions of climate and wear.

SUPERIOR BEDDING

made in our own factories, under the most sanitary conditions, will give complete satisfaction.

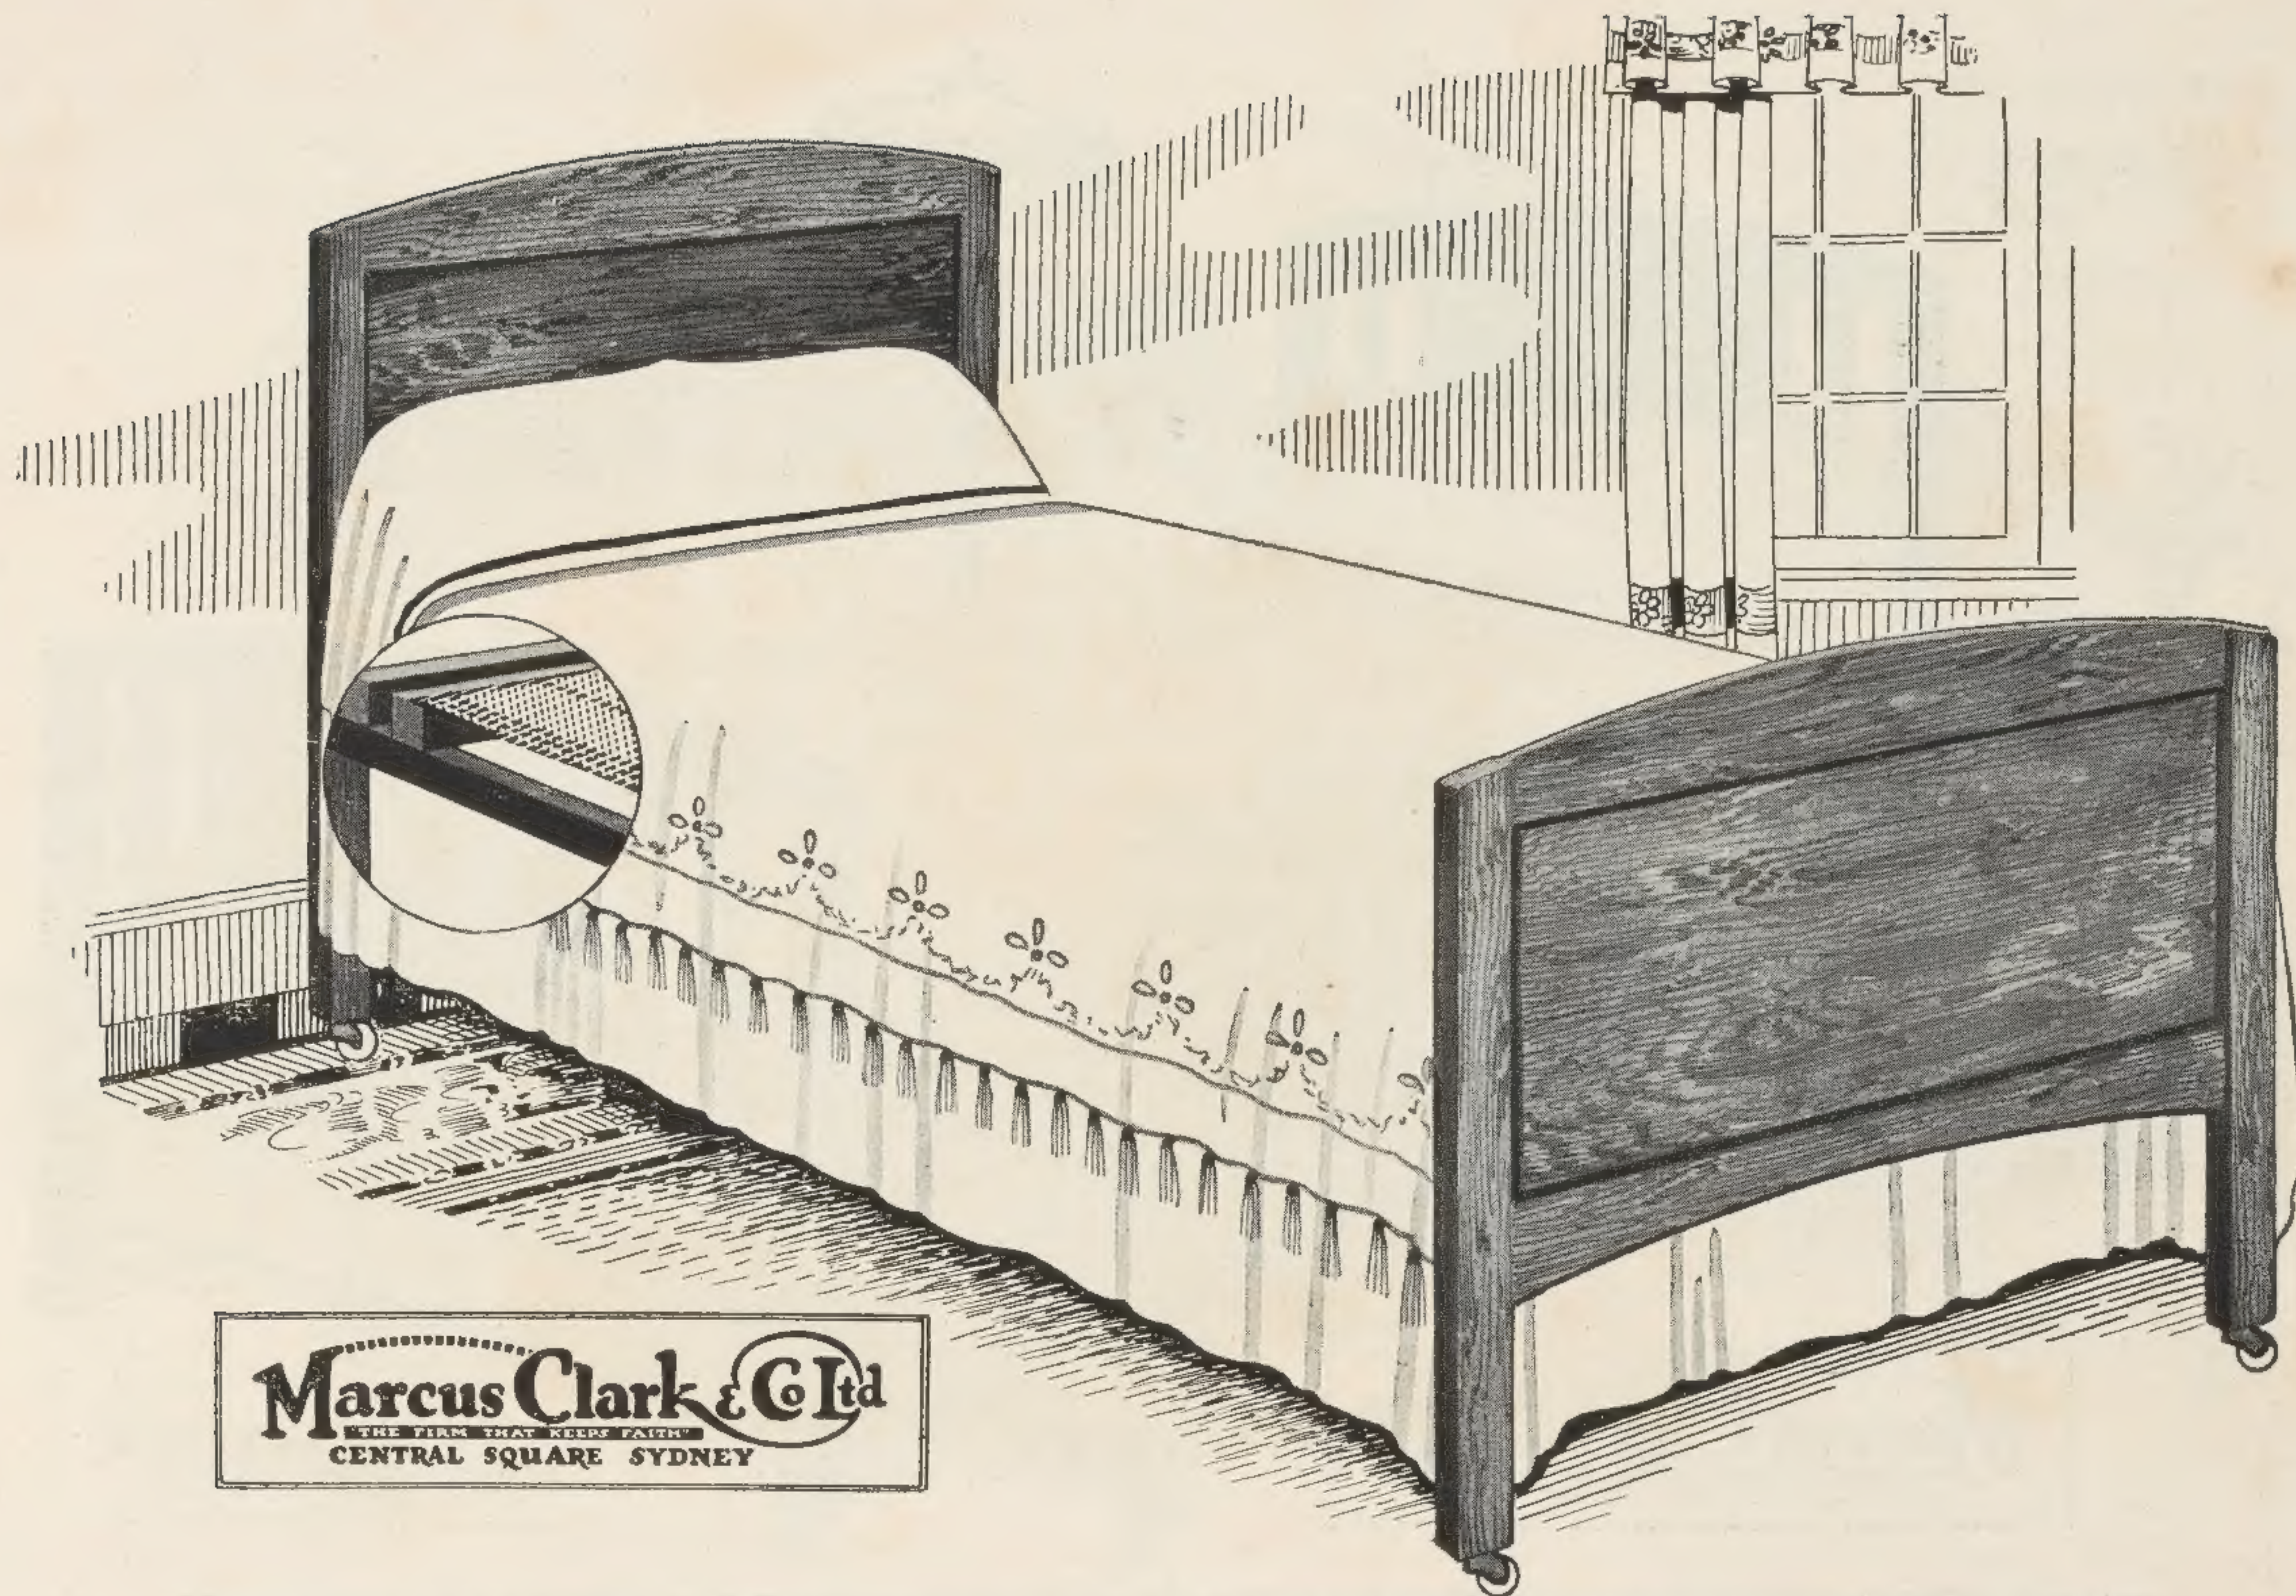

VERY LOW PRICES

are quoted with this book, and we again remind our host of customers throughout the State that our motto, "The Firm that Keeps Faith," is practically and fully demonstrated in this section of our business.

Do not fail to see the "Superest" Mattress illustrated in this book

manufacturers of the
'New Century' bedding*

Why not let hundreds of resilient tempered Carbon Steel Springs, each one encased in a Burlap pocket, support your body in restful slumber. The springs are protected with substantial layers of high-grade cotton felt and covered with artistically designed Union Ticking, available in various shades. Finished with beautifully rolled edges and rounded corners. Each mattress has Ten Ventilators inserted in the sides.

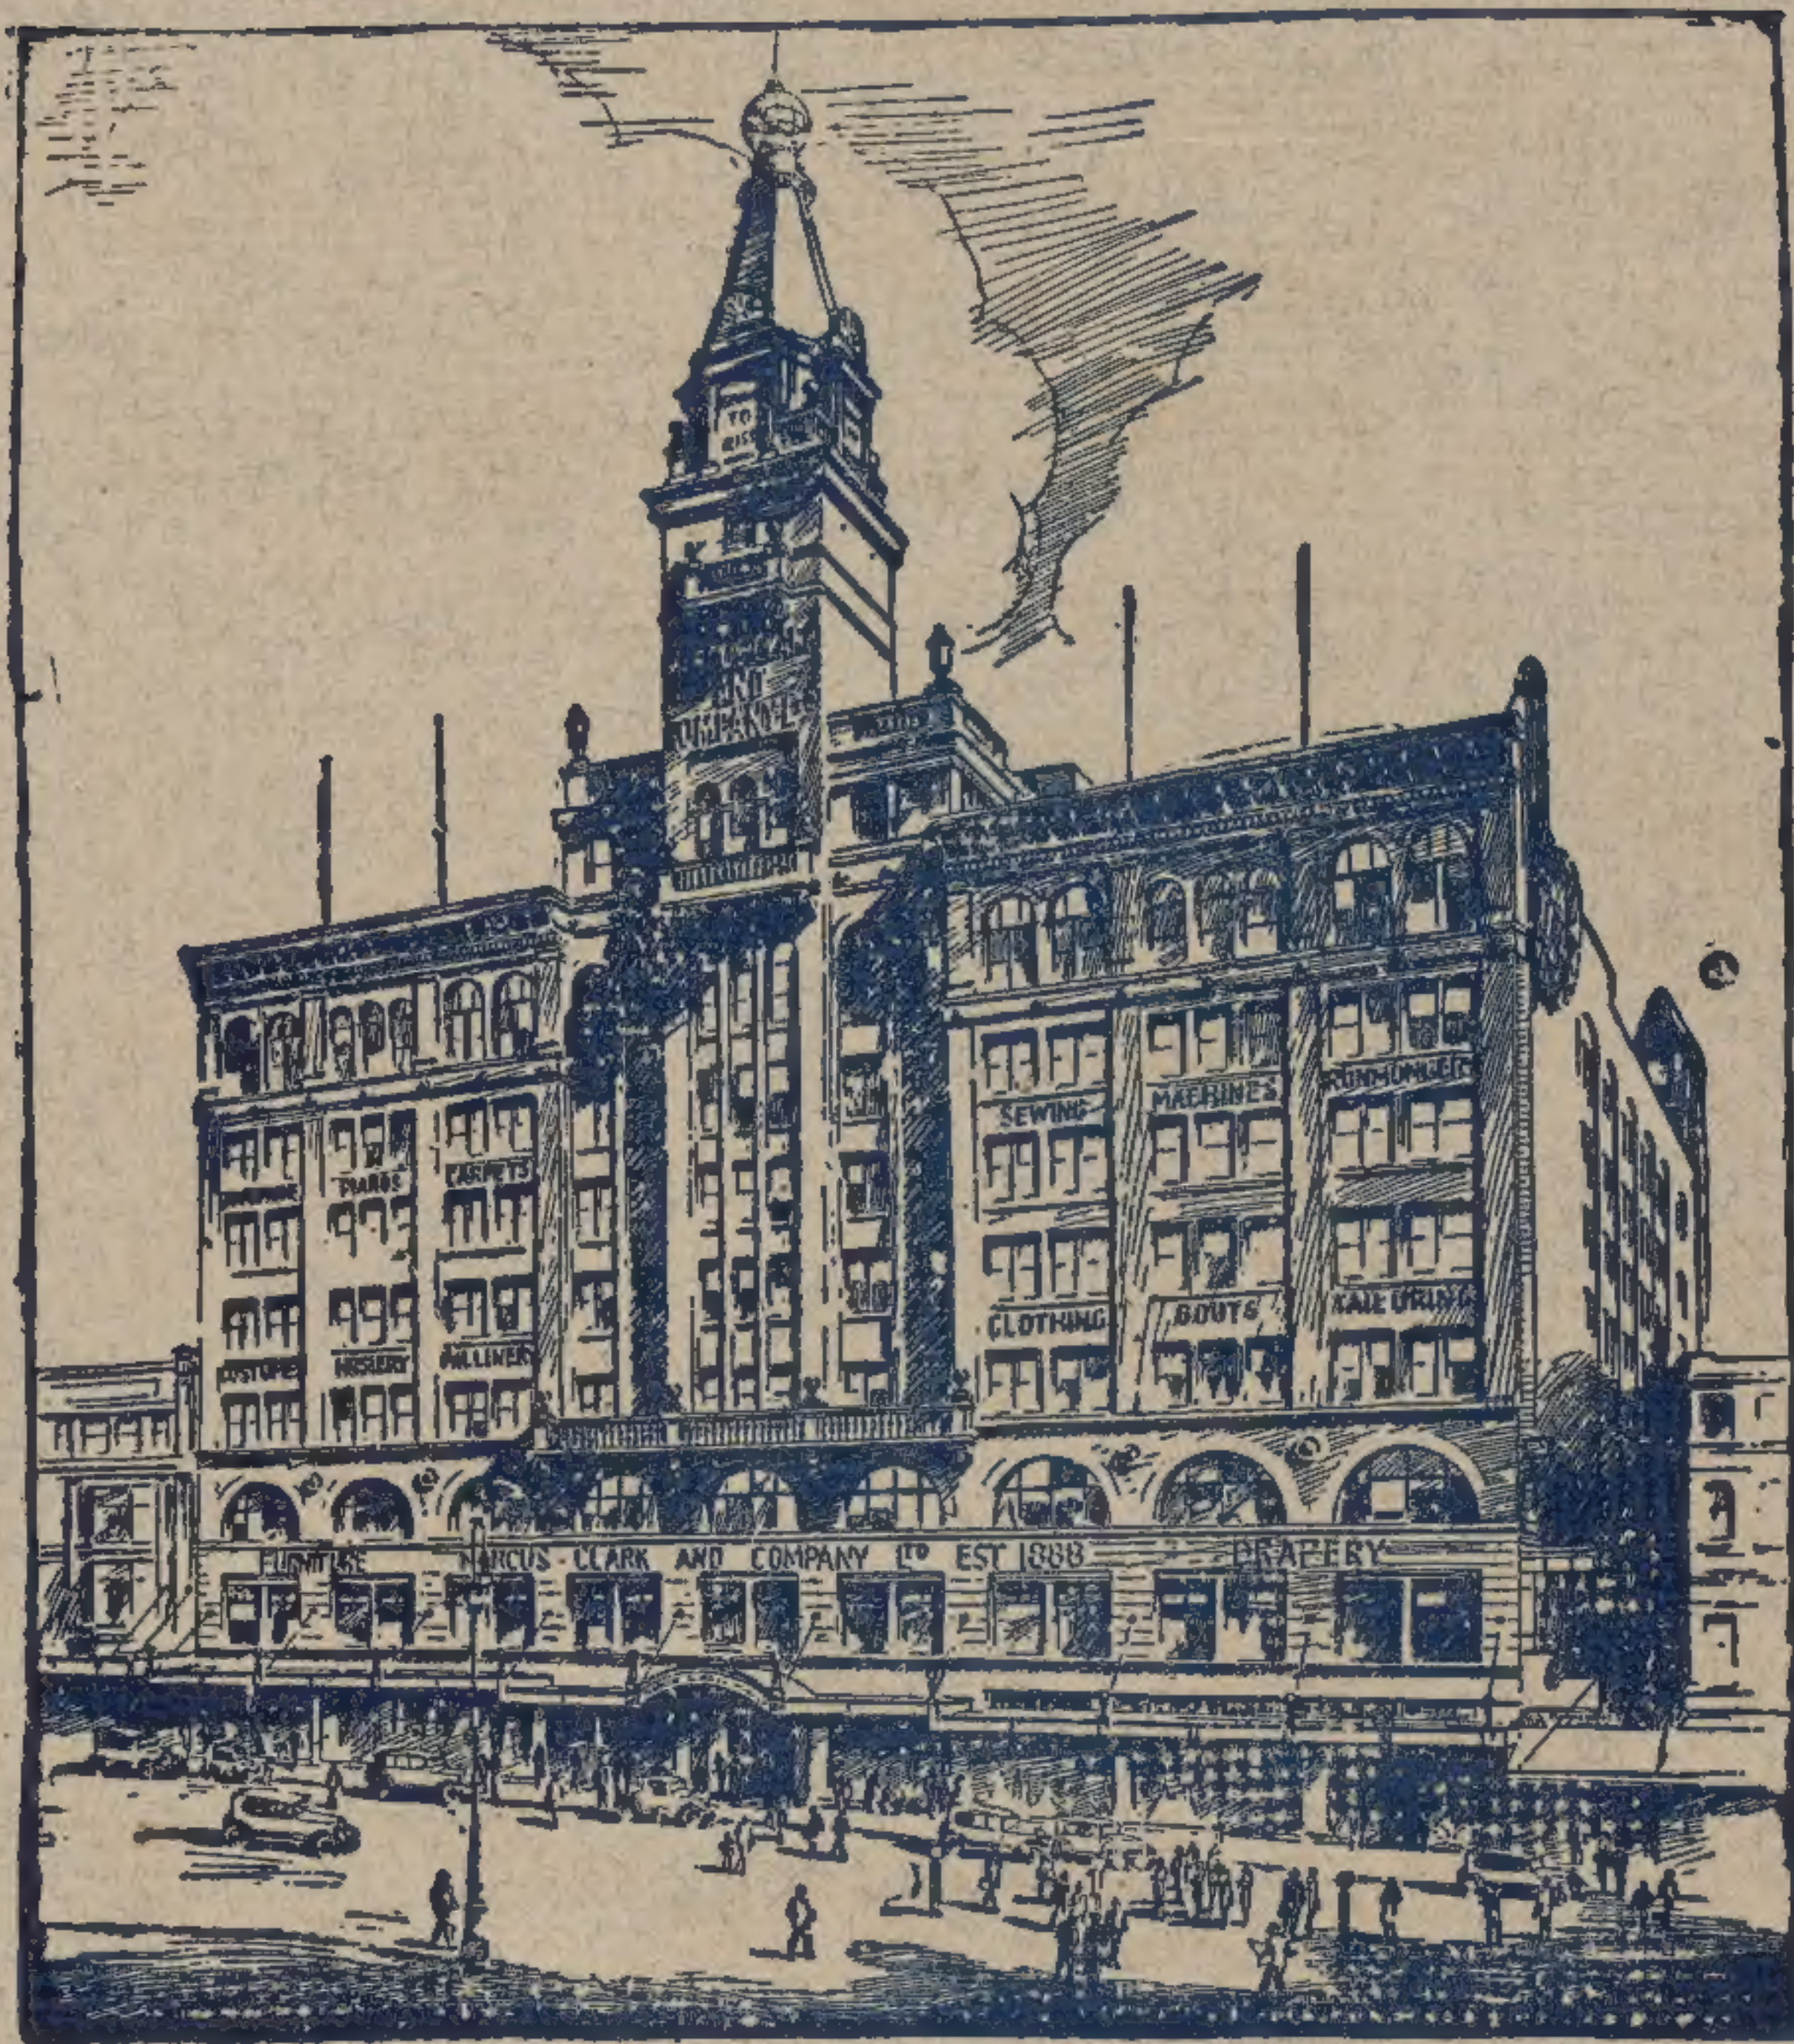

Consider this a permanent investment in sleeping comfort. After 10 years' service your "New Century" will be as soft and comfortable as when new.
